Thinking

I like thinking; it makes me feel so bright.

I like thinking; it helps me do things right.

I like thinking, especially when I know,

I need to do my best, so my talents will always show.

Crossroads

Crossroads are decisions that I make each day.

Will I do the right thing and be careful what I say?

Each little decision will help others to see

The kind of grownup I would like to be.

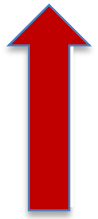
How can we reach a goal so high?



When you have a goal in sight,
Plan your steps and make them right!
What is happening now? Tell it like it is…
What are my choices? It's almost like a quiz!
How do I choose? Maybe a friend will know!
Work it through so your success will show!

How can we reach a goal so high?

Choices and decisions, we make them every day.
What shall I wear? What shall I play?
Good choices are quite simple if you give them some thought.
It's a gift to give yourself by thinking thoughtful thoughts.
