Anything Is Possible

Ethan Bortnick

When you get weak and shadows find you

And cold winds blow against your back

When valleys wide stretch out forever

And loneliness is all you have

Believe in yourself

And anything is possible

Believe in yourself and don't worry bout a thing

Believe in yourself

And suddenly everything is magical

Believe in yourself and anything, anything is possible

When your heart breaks, and no one hears it

When clouds roll in and times get hard

When you wanna fly, but your scared your wings won't hold you

If you'll just jump you might catch a star

Believe in yourself

And anything is possible

Believe in yourself, don't worry bout a thing

Believe in yourself

And suddenly everything is magical

Believe in yourself

When your sun won't rise and your fire is just an ember

Just close your eyes and remember... anything is possible

Believe in yourself

And anything is possible

Believe in yourself, don't worry bout a thing

Believe in yourself

And suddenly everything is magical

Believe in yourself and anything is possible

And anything, anything is possible
