

## **Learning Strategies**

### **1. Strategy for role play:**

### **[Strategies for Pairing Students](#)**

Have learners get with a pair share partner. Give them a series of questions to answer and let them take turns telling their partner the answer following the established procedure. Be sure to designate and include some short (popcorn) answer role playing.

#### **Pair Share Cooperative Learning Structure**

- 1 – If students are seated on floor: Designate 'elbow buddies'.
- 2 - If students are seated at tables: Assign table partner.
- 3 - If students are standing:  
Have students walk around and on a designated signal, find a partner near them.  
Those students without a partner raise their hands and find one.
- 4 - Have pairs share with each other, then with other pairs, other teams, or the entire group.

2. **[Writing Fluency Activity](#) - Demonstrates Power of Writing/Speaking in Complete Sentences and to Promote Writing Fluency - See Index of Printable Materials**
3. **[Minute Mania Verbal Fluency](#) - a verbal processing activity that allows for practice in speaking in complete sentences. - See Index of Printable Materials**
4. **[Mind Map for Practice #2](#) - Use for brainstorming what Practice #2 will look and sound like throughout the school environment. - See Index of Printable Materials**
