Academic Effort Goal

Character Goal

Life Principle Cooperation

Name Ms. Tucker Date March 20, 2017

1) C – Choice - My goal is: I want to increase my use of cooperative learning when introducing a lesson and having the students process new concepts and materials.

2) R – Reality: What is happening right now? I do mostly whole group lecture and the students do their work independently. I tried pair share once, but pairing up students took too much time.

3) O - Options: What I can try to reach my goal:

A. I can learn ways to timely pair students and also move desks into groups.

B. I can introduce the lesson topic and review content using a pair share strategy.

C. I can start by introducing pair share and teach and practice a procedure for its use.

4) S - Select one or more: I want to try: (A) (B) (C) (Underline or circle)
Plan the Steps I will take to reach my goal:

- Learn from my co-teacher a pair share procedure and get help grouping students.
- Plan out creating seating groups and moving the desks.
- Plan time in my lesson plans for teaching and practicing the procedure for pair share.

My teacher can help by NA

My parent/other person can help by sharing his procedure for using the pair share and helping me put the students in desk groups.

I will monitor my progress by the use of the pair share regularly and increased participation by all students.

daily weekly every Other:

5) S - Start over - I will check and revise my plan. weekly monthly
