Name Ms. Tucker Date October 26, 2018

1) **C – Choice - My goal is:** I want my students to plan and carry out a service project applying what they've learned in a real life situation.

2) **R – Reality: What is happening right now?** I've never tried anything like this before but read about it and my co-teacher, Mr. Thomas, has some experience doing class service projects.

3) **O - Options: What I can try to reach my goal:**

A. Look for a community service project, make a plan, and organize students to carry it out.

B. Have students in groups research types of projects and come up with ideas to present to class.

C. Give the students a choice of two or three possible service projects.

4) **S - Select one or more: I want to try: A (B) C (Underline or circle)**
Plan the Steps I will take to reach my goal:

- Get together with Mr. T, write the lesson plans, and create a rubric so students know expectations.
- Create groups and plan the student research time in the computer lab
- Use the G.E. online resources for the 'service' life principle and Expectation 5.

My teacher can help by Mr. Thomas can help sharing his experience doing class service projects and creating the rubric.

My parent/other person can help by I'll notify parents of the service project and encourage students to get input/ideas from them.

I will monitor my progress : Meeting the guidelines in the rubric and student participation

daily weekly every **Other:**

5) **S - Start over - I will check and revise my plan.** weekly monthly
