

Ms. Tucker's \_\_\_\_\_'s Goal Progress Analysis

My Goal: I want to work with my co-teacher, Mr. Thomas, to create and implement a plan  
for the use of the G.E. C.R.O.S.S.ROADS goal setting process in our classrooms.

Write specifically what is happening now towards achieving your goal under Opportunity and the Benefits and Obstacles for each where appropriate.

The students responded well to 'The Crow and the Pitcher' lesson plan introduction. They were excited to come up with the same responses as the crow. Each student worked through the CROW goal setting worksheet for an reference example. (had option of Crow Simplified CR Worksheet)

We reviewed the simplified EX I Elem example to see how it applied to math and the EX I MS/HS example for completing homework.

The brainstorming in groups for possible goals in math went really well. Each group posted 3+ on our goal display as a reference.

Next each student will set a short term goal using the Simplified Goal Setting Worksheet.

The students were able to transfer the goal setting concept to other aspects of school. They seemed excited about making decisions about their own learning.

I'm finding it truly amazing at how honest most are about what they need to work on in math. The self-reflection/self-assessment by the students is such an important part of this process. I don't think many have ever done anything like this before. Developing this skill is going to be even more impactful than I'd anticipated. That they have a definite process to work through makes it so much easier.

- We're carrying it over into some class goal setting. Having the LP's to reference and using the sign language is helping with the integration into other aspects of our classroom. They really enjoy the nonverbal communication.

Has the goal been accomplished Yes No **In Progress**

Explain why or why not?
