

## **How to Use the “iPhone Appointment” Strategy For Scheduling Partners**

- 1. Give each student one copy of the iPhone Appointment handout.**
- 2. Give the following directions:**

**“We are going to use these sheets to schedule partners for the various activities that we do in class. When I say, “Go,” take a pencil and the iPhone sheet, and find a partner. Write your partner’s name in the blank by (specify a space, i.e. Maps) . When you have finished, wait for further instructions.”**
- 3. Check for understanding.**
- 4. Give the “Go” signal and allow them time to find a partner.**
- 5. When they have finished with one partner, have them find a different partner and repeat the process specifying each time the specific blank to be filled in on the iPhone. In the same way fill in only 3-4 more of the spaces that you specify.  
i.e. “Make appointments for weather” on the iPhone.” (It’s usually easier to fill only 3-4 at a time.)**
- 6. When you want to use pairs, simply tell them to meet with a specified iPhone appointment. – i.e. Maps partner.**
