

Ms Tucker's Goal Progress Analysis

My Goal: I want to integrate vocabulary building into the curriculum and have students create visual reference tools and apply the new words in discussion and student-created products.

Write specifically what is happening now towards achieving your goal under Opportunity and the Benefits and Obstacles for each where appropriate.

I introduced the lexicon with the CURIOUSITY Literature Fable 2 lesson

There is enough there for me to take a week to go through the whole lesson so it's easier to fit in and I think the daily use reinforces the learning as well as the life principle.

I made space for my Word Wall and decided to color code the paper for the part of speech of each word. For those that can be more than one we added small color squares. They are doing the same with markers in their lexicon notebooks..

I really like the vocabulary words with dictionary links to reinforce dictionary skills.

The kids are amazing me with their critical thinking questions using Six Question Learning Strategies The students have really gotten into the word study and creating their own lexicons. They asked if they could add words of their own. Yahoo!

I shared the Alphabet Math Game with Mr. Thomas from the G.E. Vocabulary Strategies .

He really liked being able to combine math with vocabulary.
